We want to take this time to thank you and your team for helping us to a successful turnover of the new emergency wing for the Montgomery General Hospital. Through hard work, persistence, dedication, patience, and a firm commitment to a goal, we have completed a significant milestone of this project.

The whole HBE project team knows this could not have been done without your organization's team work on the site.

Again, on the behalf of Chuck, Jon, Kyle, Chappell, Chasnea, myself and the hospital staff, we greatly appreciate your efforts on this project. Our hope is that we keep this momentum going into the final renovations and completion of this project in the coming months.

Many thanks,
